

# Universal Dash Mount 30m.m. 15° angle 70286

**This Dash Mount is designed for:**

Universal Dash Mount 30mm For DIN Mounted Radio

**Location:**

Right side of the radio

**Tools Required:**

DIN radio keys

## Monteringsanvisning

Steg 1: Ta ut radioen.

Steg 2: Skyv Dash Mounten inn i sprekken til høyre mellom radioen og rammen.

Steg 3: Skyv radioen inn igjen slik at klipsene kommer på plass. Det kan være en fordel å modifisere klipsene eller radiatorammen litt til få å få tak i rammen.

Holderen kan også monteres på venstre side men da må vinkelen bøyes litt.

## Mounting Instruction

Step 1: Pull out the radio approximately 5 cm.

Step 2: Place the Dash Mount to the right side into the gap between the radio and the radio frame.

Step 3: Push the radio into position again. Left side position is possible to the left side - but than you will need to bend the mounting plate slightly. If the radio clips do not fasten again on the holder side you may need to modify the clips or the frame slightly.

Dato / Date: 25.06.2001

Correct direction of the rose pattern.

Do not use force when working with plastic components. Use extreme care not to scratch the interior of the vehicle. MTU may not be held liable for any damage to a vehicle connected to the installation.
