- Band Length: 235mm
- Adjustable Length: 155mm - 210mm
- Tracker Dimensions: about 40mm x 16mm x 10mm

## Setting up the tracker

First of all, make sure that the Xiaomi Mi Band 2 is fully charged before commencing a setup. To recharge it, use the included charging cable and insert the tracker into the cradle with the gold plated connectors first. Plug the cable into your computer or power adapter. The tracker's display will show the battery icon for 3 seconds to indicate that it's charging. It'll take about 2-3 hours to fully charge the battery. You can tap the touch button on the tracker to check the progress.

To set up the tracker, insert it into the rear of the strap, and secure it on your wrist as shown in the picture above.

Download the Mi Fit app to your device from the App Store or Play Store and install it.

Turn the Bluetooth on your device on and open the App. Select "Add Device" and choose "Mi Band" from the device list. The tracker will vibrate and ask you to tap the touch button to pair with your device. Once done, the Mi Band 2 will display the time, and the Mi Fit app will show you the health data and options to customise your Xiaomi Mi Band 2.

## Using the Xiaomi Mi Band 2

**1.**

**2.**

**3.**

*1. Time; 2. Steps; 3. Heart rate*

Once your Mi Band 2 is set up and paired with your device, it will automatically start to calculate and analyze your movement, sleep, etc. Tap the touch button once to display the current time. Press it twice to view the number of steps you made, and tap it again to see your heart rate.

The Mi Fit app synchronizes with your Xiaomi Mi Band 2 automatically to show you with even more data. It also allows you to set a variety of alerts and alarms.
