

Universal Bluetooth / 3.5mm Audio Receiver

Bluetooth pairing instruction:

- Turn on the Bluetooth receiver
- Turn on the Bluetooth function on your phone,
- Search for a Bluetooth receiver and click for connection
- Then you will hear "pairing succeed", and the blue indicator blinks

3.5mm audio device connection:

- Insert the 3.5mm jack of your device to the receiver's audio output. Then connect the Bluetooth receiver to the car stereo or home stereo

Charging

- Before first use, you need to fully recharge it. The red light is constantly on during charging, and when the charging process is finished the red light turns off.
