Charging the smartwatch

1. Place the smartwatch on the charging station and make sure that it's connected to the base
2. Plug the cable to the charging station
3. Connect the cable to the AC wall charger or USB port of your computer

Pairing the smartwatch with the device

1. Download the Forever Smart App from the Play Store or App Store
2. Activate the Bluetooth connection on your smartphone
3. Start the Forever Smart App on your smartphone
4. Fill in the required user profile data
5. Click the Watch setup button
6. Find the SW-500 and pair it with your device (or via a watch find your phone and connect - only for iPhone)
