5. Indicator

Pairing mode

When you pair the headphones for the first time, please keep the headphones within 1m of your device.

Press and hold the Multifunctional button for 4 seconds until the white LED indicator starts flashing. It means that the earphones entered into pairing mode.

Turn on the wireless on your phone, search for the device, select Baeus Encok S17, and connect. Enter the pairing password 0000 if needed.

Note:

- 1) If pairing fails, please try it again until the white LED flashes slowly.
- 2) If you want to connect to another device, please press and hold both Volume Up and Volume Down for 3 seconds to disconnect with the first device and enter into pairing mode.

Talk mode

- To answer a call press the multifunctional button once
- To hang up press the multifunctional button once during a phone call
- To reject a call press and hold the multifunctional button for 2 seconds
- To switch audio during voice call press and hold the multifunctional button for 1 second to switch from headphones to a smartphone, and do the same to switch back to headphones.
