App Download & Pairing

1. Scan the following QR code to install the roadcam App, or download it from App Store or Google Play to install it.

2. Start the engine of your vehicle, then connect the dash cam to the power source
3. Turn on the WiFi on your phone, search for CarDV_WiFi, and tap to connect (default password is 12345678)
4. Open the roadcam APP and you are ready to use it

Note for Android

Maybe your phone will inform you that this WiFi network has no internet access, you need to choose "Connect anyway".

App functions

1. Video playback button
2. Record/stop button
3. Gallery - browse previously saved photos
4. Settings
5. Camera

Camera ports and buttons

1. Reset port - insert the pin to restart the dashcam
2. Power port - connect the dashcam with the included car charger
3. TF card slot - it supports microSD Class 10 memory cards up to 128GB
