Charging the smartwatch
Please charge the smartwatch before the first use. To do so, take the charging cable, plug it into the wall charger (not included) or computer, and connect the other end to the smartwatch. Charging time is about 1,5 to 2 hours.

Bluetooth pairing and Youth Health app
Turn on the smartwatch and activate the Bluetooth and GPS. Use your phone and scan the QR code below or search for the Youth Health app on the Google Play Store for Android or the App Store for iOS and download and install it.

After the installation is complete, open the App, go to Device, then Add Device and select your smartwatch from the list. Once connected, the smartwatch will automatically synchronize the time, date, and language.

After installation, you may need to fill in your personal information, such as gender, weight, etc. The following functions can only be realized under the premise that the mobile app is successfully connected to the smartwatch:

- Notification - Includes call notifications, SMS, push messages for other apps
- Heart rate - open heart rate detection, set the detection time period and the smartwatch will detect at the specified time
- Take a photo - use the smartwatch to control your phone's camera
- Find the device - the smartwatch will vibrate and turn on the display
- Do not disturb mode - all notifications except alarm will not interrupt you
- Raise hand - when on, this function allows the display to turn on automatically when you raise your hand
