How to operate the phone

Press and hold the Power button for 2-3 seconds and the phone will power on. To power off the phone, press and hold the Power button for 2-3 seconds while the phone is on.

For the SOS function, go to settings and set the SOS status On or Off. It is very important to set no more than 5 telephone numbers. When the user presses the SOS button, the phone will dial the numbers settled one by one automatically.

To turn off or change the ringtone, message tone, volume: go to Settings -> Profiles -> General -> Customize.
