- Charging voltage: DC 5V
- Dimensions: 24 x 26 x 10cm
- Material: ABS, memory foam, cotton

1. Switch
2. Outer pillowcase
3. Pillow core: Memory sponge

## Operating method

Press the power button for 2 seconds to power on the massager. In the kneading and massage mode press the (↺) button to adjust the forward and backward rotation of the kneading. Press the (📶) button to adjust the kneading vibration, kneading heating, and kneading vibration heating. Press the +/- button to adjust the knitting strength. The two massage intensities can be selected freely. To turn off the massager press the power button for 2 seconds.

The massager is powered by a built-in Lithium battery, and the voltage may be unstable during charging, so it can't be used while charging. It takes about 2 hours to fully charge the massager.
