Buttons and indicators

OFF/ON

Power toggle switch: slide the switch left or right to turn the keyboard On or Off.

Connect

Connect button: press to connect to your tablet.

Power

Power indicator: when you turn on the keyboard, it will turn on for 4 seconds and then the light will go off.

Bluetooth indicator: press the connect button and this indicator will start blinking. Once you connect your tablet to the keyboard it will stay on.

CAPS

Upper and lower case indicator: when you're typing with upper case letters, the indicator will stay on.

Charge

Charging indicator: it will start flashing when the battery level is low and it will light constantly when the keyboard is charging.

Charging

When the battery is low, the charging indicator will start flashing. To charge the keyboard, use the cable that came with the keyboard and plug one end into the keyboard and the other into the computer's USB port or power adapter. The charging indicator will stay on while the keyboard is charging, and it will go off when the battery is fully charged.

Connection

First of all, you need to turn on the keyboard by toggling the Power switch. When the keyboard is on, press the Connect button, and the Bluetooth connection on the keyboard will turn on. Use your tablet, open Bluetooth settings, and search for the available devices. When the Bluetooth keyboard is displayed, tap on it to pair.
