

User manual for Backlit Wireless Keyboard / Touchpad for Smart TV A36

Specifications

- Frequency range: 2.403-2.480 GHz
- Range: up to 10m
- Battery capacity: 1020mAh Li-Ion
- Dimensions: 14,8cm x 10cm x 1,8cm
- Weight: 92g

Connecting the receiver

- Open the box and pick up the USB receiver from the back cover of the remote
- Insert to the device with a standard USB interface. The keyboard will be found and installed automatically.

NOTE: When the battery is low, the low-voltage light will blink to warn the user. The unit will be automatically turned off if the battery has been depleted.

Auto sleep and wake up feature

The keyboard also features an auto sleep and auto wake mode. If there is a long period of inactivity, the keyboard will automatically go into sleep mode. During the sleep mode, the user can wake it up by pressing any key. The 2.4 GHz receiver and keyboard's RF indicator will continue to flash and will not power down.

Switching off the keyboard after use

When you finish using the keyboard, push the switch to the off position. This turns off the power of the keyboard. The USB receiver should be plugged out from the PC and then inserted back into the keyboard so it is being kept safely.
